Fourth Annual Michigan Canoe Championships To Start August 26

Prize Money Is Boosted By \$250

The Fourth Annual Michigan Canoe Championship race was set for the week-end of August 26-27 and prize money was increased to \$1,650 at a meeting of race committee members at Mio Wednesday night.

Decision to run the race came as a result of a compromise between Grayling and Oscoda.

Grayling had held out for a fall race, maintaining that the original intent of the event was to extend the tourist season, and for a Saturday start on the grounds that they would not receive any local benefits otherwise.

Oscoda had held out for a summer race because it would then be possible for their summer residents to witness the event without coming back to their cottages. They also had held out for a Friday start to have the race finish at Oscoda on Saturday. It was claimed that the crowds at the finish always left after the first two or three canoes crossed the line.

The stalemate on the above counts resulted from the first meeting of the season. However, during the few days preceding last week's meeting, it appeared that the compromise, which was agreed upon Wednesday would be forthcoming.

It was also agreed at the meeting that Grayling would have the privilege of setting the date for the 1951 race.

The fact that the canoe race dates were the same as the dates set for the Annual Top O' Michigan Outboard Marathon Race, which starts at Topinabee was discussed. The outboard race of 85 miles through the state's inland waterway annually attracts a large crowd. However, it was the opinion of those at the meeting that the canoe race attendance would not be reduced by the outboard race because of the distance between the two contests.

To have held the event a week earlier would have run into the Fifth National Field Archery association tournament being held at the Tawas.

An Aug. 12 starting date was also pointed out as possible due to the fact that the National Guard encampment at Grayling opens on

that day.

In setting the prizes for this year's race, the first place money was left at \$600, second place was raised from \$300 to \$350. Third from \$200 to \$225; and fourth from \$100 to \$125; fifth and sixth places were increased from \$50 to \$75 and seventh to 10th places from \$25 to \$50.

Ray Snider of Grayling, last year's general race chairman, was named starting committee chairman; and Charles D. Hager, of Mio, was named chairman of the judges' committee. Start of the race was set for 3 o'clock in the afternoon, the same as last year.

Entry fee will remain at \$5 per person, and only stock model canoes without hull alterations may be entered. The age limit for contestants was lowered to 18 years from 18.

In attendance at the meeting were General Race Chairman E. H. Snickney, and Treasurer H. L. McNichol of Oscoda; and Secretary Jerome Kessler of Grayling, as well as representatives of Grayling, Oscoda and Tawas Chambers of Commerce and Mio Sportsmen's club, sponsors of the race.

FATHER AND SON BANQUET

One hundred fathers and sons attended the father and son banquet held Friday night at Masonic Temple, sponsored by the Ladies of the Eastern Star chapter.

A delicious dinner was served in the dining room. The tables were decorated with lighted tapers and large bowls of pansies.

A short program followed invocation by Rev. R. C. Puffer. Remarks by toastmaster Ernest Larson; toast to fathers, Skippy Hanson; piano solo, William Sanders, accompanied at the piano by Mrs. C. G. Clippert; toast to sons, Frank Bond; duet, Tommy Stancil and Don Gothro; reading, Ernest Larson; gifts, eldest father present, Thomas Haugh; youngest father, Sandy Thompson; father having most sons, Sheriff Golinick with four.

Kiwanis Club Notes

Wilbur Bull and Ed Raye of the Education Division of the Michigan Conservation department were the two speakers at the weekly meeting of the Kiwanis Club of Grayling held Monday evening at the Lone Pine Inn. They were introduced by Carol Wert who was program chairman.

Mr. Bull told some interesting experiences of the members of the Lewis and Clark expedition up the Missouri River while Mr. Raye delved into the early history of Michigan before the coming of the white man. He spent quite some time on Indian life, the tribes and the possible number of natives in Michigan. He said that findings of the Department and the University of Michigan seem to substantiate the fact that Michigan was completely burned over about 500 years ago and that the huge forests developed after that in the state.

Also guests were Col. Walter Nichol of the Michigan Air Guard, Col. Empey, assistant in command of the Colorado-Wyoming Air Guard and Col. Anderson and Major Phennig of the western flyers. Col. Nichol and Empey both spoke briefly.

C. Ray Snider was inducted into the club as a new member.

James Feldhauser, son of Mr. and Mrs. Paul Feldhauser, received the American Legion Wilson Memorial Scholarship and plans to attend Central Michigan College of Education in East Lansing. Miss Nancy Hoels, daughter of Mr. and Mrs. Dan Hoels, was awarded the State Board of Education scholarship and will also attend Central Michigan.

Congratulations are in order for these four young people.

Roberts Named County Treasurer

Mayor A. L. Roberts of Grayling was unanimously named to become County Treasurer on July 1 to replace Col. Roy Sindler who is resigning due to ill health.

Mayor Roberts, who has been employed in a maintenance position at the Grayling MacNamara Air Base has resigned his position there and is already working with Treasurer Singler to familiarize himself with the duties of the office.

The county committee made up of Probate Judge Ray F. Clement, who acted as chairman, Prosecutor Robert Neafie and County Clerk Leo Lovely met last Tuesday morning. Chairman Clement called the meeting to order and after due consideration was given to each of the several candidates, Prosecutor Neafie made a motion to name Roberts to the post. Clerk Lovely supported the motion and a unanimous ballot resulted.

Roberts, a member of the Crawford County Board of Supervisors by virtue of being Grayling's mayor will have to resign that position in order to take the office of County Treasurer. His position as mayor and at the same time being County Treasurer has not been decided as to legality as yet. Probable decision in this respect is expected in the next few days after a cross check of the City Charter and State Law.

We hope to take all the teams down river for a good old fashioned weiner roast at the end of the season.

Following is the schedule for the second half. All games will start at 8:30 sharp.

Field Training Conference Set

Major General Ralph A. Loveland, commanding general, 46th Division, called a conference of the National Guard organization commanders that met Sunday morning, June 18, at the division headquarters in Lansing, to present plans for 1950 summer field training.

The 46th Division and other army units, are scheduled for 15 days of field training August 12 to 26 at Camp Grayling. AAA battalions will train August 5 to 19 at Camp Haven, Wisconsin. More than 8,500 army troops are expected to participate in 1950 field training.

Michigan's historic 107th Light Bombardment Squadron may be converted this month to a jet fighter squadron under plans recommended by the National Guard Bureau and approved by Brigadier General George C. Moran, the Adjutant General.

If the Detroit squadron is converted to jet aircraft soon enough, the site of the 1950 field training, scheduled to be held July 2 to August 5, will be changed from Camp Grayling, Wisconsin, to the unit's home base at the Detroit-Wayne Major Airport. The conversion is part of a national program eliminating light bombardment squadrons in the Air Guard. General Moran has requested delivery of F-84 "Thunderjet" planes for the new squadron on or before July 1.

The traditional jet designation dating back to the original organization of the Michigan Air Guard in 1926 will be retained by the new fighter squadron.

The conversion program will give Michigan three fighter squadrons included in the 127th Fighter Group. Detroit's 171st Fighter Squadron was converted to F-84 Thunderjets early this year. The 172nd Fighter Squadron at Battle Creek is still equipped with conventional F-51 fighter aircraft. It is scheduled to train at its traditional summer training site at Camp Grayling.

The Air Guard's 127th Aircraft Control and Warning Squadron of Detroit will train during the same period at Selfridge Air Force Base, training for Dearborn's 1808th Engineer Aviation Company has been set ahead two weeks. The unit will train July 8 to July 22 at Camp Williams, Wisconsin.

Noble Intentions Are Not Enough

When a socialist party takes over the government of a country, it may have the noblest of intentions. It may be passionately devoted to the ideal of making life better for everyone. But, in practice, and regardless of the probity and purpose of the men in control, it always winds up by regimenting the energies and resources of the nation, and weakening the fibres of the people.

A particularly good example of that is found in England, and we need not turn to Conservative Party spokesmen for evidence. Four years ago, on May 6, 1946, an influential member of the Labor Party, Ivor Thomas, said in Commons: "Today, over a wide field, private enterprise has become a stumbling block to economic advance. In the new Renaissance the new and potent instruments which science has placed in the hands of man are matched by a new and fruitful principle; the principle of public enterprise based on the service of the many instead of the private profit of the few; a principle which is as much in advance of private enterprise as private enterprise was of the feudal guild."

At that time, Labor had newly come to power, and Mr. Thomas looked to the future with utter confidence. But disillusionment came fast. In another speech before Commons, made on October 27, 1948, he said: "The most obvious result of the Government's activities in the past three years has been an immense concentration of power in the hands of the State and a corresponding weakening of the power of the individual to stand for himself. . . . The itching fingers of the planners cannot leave well enough alone. Their grasping hands stretch far beyond the confines of industry to the man who wants to run up a building for himself and the woman who keeps a pig, or a few hens, in her backyard. . . . On top of the universal control of our economic life, the Government are now wiping out the last vestiges of independence by confiscatory taxation."

Trout Prefer
Old Diet

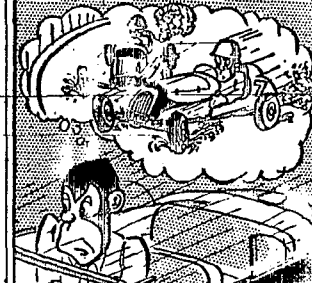

The regular diet still is the favorite with state hatchery trout here, conservation department fisheries workers find after tests with a new commercially prepared fish food reported to have found favor in several western states.

Tests at the hatchery indicate less mortality and a better growth rate with the regular formula of pork melts and horse meat as compared with the commercial preparation which combines other packing house products and cereal. The more expensive commercial food has found favor in western states which had been utilizing diets comparatively less favorable.

According to Dr. L. N. Allison of the department's institute for fisheries research, taste comparisons of the two groups of fried trout revealed no apparent advantage of the commercial product over the house diet. To impartially compare taste quality, fisheries workers were served portions labeled only as "A" and "B". With exception of Allison, no other personnel knew which portions had been fed on the regular diet.

Letters To The
Editor

June 9, 1950.

Mr. Editor:
I am enclosing a clipping from the June 8 edition of the Avalanche. The title of the article was "School Out Now, Kids Need Protection."

I feel that the above paragraph needs an editorial comment. It seems that ever since I can remember the City has balked putting a play center in the Connine Grove, for which it was intended.

How can any organization as the V. F. W. or American Legion do anything for the young people if the City vetoes every request for help?

I would, and most of the young people in Grayling, like a place to go for a good time where there wasn't drinking and scrounging, but no, our City Council is so self-centered they can't see building a play ground, or recreation center.

A few years ago a progressive teacher in our community organized a group of young people to build a center and playground. You guessed it, the City said they couldn't afford to help us. That seems to be their main excuse.

If they are so poor, the citizens of this community have a right to know the truth of the books; or can't they afford to have the amounts published? I'd like to see proof that they can't afford it, or maybe that would show their other face.

Sincerely yours,
Patricia Stephan,
A High School Citizen.

Editor's Note: At one time, City Manager George Granger presented a plan to sell one-half of the land which wasn't needed and to use the money to develop the other half into a playground. This plan was defeated by a concerted action of the town citizens.

The "progressive teacher" was hired from a boy's and girl's fund by a committee and the playground activity was stopped after the attendance dropped to about 10 per cent of the first day's crowd. It was apparent to the committee and the instructor that there was not enough interest.

Greyhound Schedules New
Run Through Grayling

New Greyhound "express" service between Detroit and Calumet is scheduled to begin Thursday, June 22, according to J. V. Murphy, general traffic manager for Great Lakes Greyhound Lines in Detroit. This new improved service that starts at the beginning of the vacation season will let vacationers and other bus travelers enjoy the convenience of low-cost, time-saving bus transportation to and from many of Michigan's most popular vacation spots.

One new "express" schedule will operate each way daily, supplementing the two "through" schedules, with no change of coaches, which Greyhound now operates between these two cities. The "express" buses will travel via Pontiac, Flint, Saginaw, Bay City, Mackinaw City, St. Ignace, Rapid River, Marquette, Houghton and intermediate points including Grayling.

In a statement by the local representative for Greyhound Lines, it was pointed out that the southbound Detroit-Calumet "express" will leave Grayling at 2:21 A. M., daily, and will arrive at the Detroit downtown Greyhound Terminal at 8:10 A. M. The northbound schedule will make a 1:34 A. M. departure, arriving in Calumet at 1:25 A. M. Modern 37-passenger Greyhound Supercoaches are being assigned to these Detroit-Calumet "express" runs. Murphy emphasized, "All will be pleasantly outfitted and comfortably cool."

Group Leave For
Canadian Wild Trip

A group of five local boys with Rev. and Mrs. R. C. Puffer and daughter, Mrs. Gene Cornwall left last Sunday afternoon for a two weeks trip into the Ranger Lake district of northern Ontario, Canada.

The group intended to make their base camp on Mystery Lake and expect to make several trips from there on back deeper into the wilderness. The boys making the trip are: Duane Vincent, Ronnie Larson, Billy Mudge, Buddy Newell and Lloyd Ailing.

Filling the pulpit at Michelson Memorial Church on Sunday, June 25 while Rev. Puffer is absent will be Frank Peters of Gaylord. Rev. Puffer announced that Rev. H. T. Seebree would take his place in the case of an emergency while he is absent from the city.

Mounting Drownings
Bring Warning

Michigan's mounting toll of drownings brought serious warning today from the Michigan Department of Health.

Keep your children out of quarries, water holes, creeks and rivers, the Department advised.

Teach your children to swim, but teach them swimming and boating precautions as well. If you cannot swim yourself now is a good time to learn. National studies show that the majority of drownings are avoidable and that eight out of ten who drown do so within fifty feet of shallow water or safety.

Be wary of boating accidents in the fishing and boating season just ahead. Boating accidents in Michigan waters took 82 lives last year, more than any other form of drowning.

Be sure that any boat you use is in good repair. Don't overload it or stand up in it or lean way out of it. If you can't swim well, take along a life preserver or an old inner tube. Stay out of the swell of large boats and out of any swift current. Put for shore when a storm threatens. If your boat should capsize wait for it to come up, take hold of it and stay with it until help arrives or you drift ashore.

Swim always with at least one companion and, if possible, only at a guarded beach during daylight hours.

Wait two hours after a meal before you swim. Most drownings result from stomach cramps. Don't go in swimming when you are overheated, tired or intoxicated. Go in slowly. Quick plunges into cold water can be fatal.

Warns Of Stolen
Benefit Checks

More than 2,000 Michigan Unemployment Compensation Commission blank benefit checks are in the hands of safe robbers who have twice in recent weeks raided outlying Detroit branch offices of the M. U. C. C. Efforts to cash these checks may be expected anywhere in Michigan within the next few days. Max H. Horton, Assistant Executive Director, said today.

The checks included both state industrial checks and G. I. checks, Horton said. In an effort to protect merchants small business men, banks and other business establishments from cashing these forget benefit checks under the impression that they are valid checks the Commission this week issued a warning to banks, merchants, gasoline stations, grocers, and others to be on the lookout for checks bearing the following serial numbers recently stolen from the Commission's Branch Offices.

Industrial checks on the Detroit Bank are B829,972 through 930,800, B-808,427 through B-808,800, and B-891,301 through B-892,100. G. I. checks in the Industrial National Bank are A-541,994 through A-542,100, and A-540,616 through A-540,900.

"These checks are forgeries," Horton said. "Therefore, the people who cash them will have to

stand the loss themselves."

"In order to protect the small merchants from this type of deception, the Commission asks them to keep this list of serial numbers and consult it every time he is requested to cash an unemployment check."

"Should any check bearing any of the above serial numbers turn up, the Commission desires the merchant who is asked to cash it to immediately call the nearest police department."

"A primary rule to observe in cashing checks of any type, is to know the person for whom you cash it," Horton said.

Russ Martin Resigns Post

Russell J. Martin, veteran conservation department employee and superintendent of its Higgins Lake training school since 1936, is leaving state service because of ill health. On sick leave for several weeks, his resignation is prompted by a chronic heart condition.

A widely-known wildlife lecturer and photographer and authority on firearms, Martin joined the department in 1922 as a conservation officer, advancing to regional supervisor's grade in the field service before his transfer to the school post. In that capacity, he has lectured on conservation subjects before thousands of teachers and children.

Martin whose home is near Prescott, will make wildlife photography his vocation.

Lake Fishing Opens Sunday

Michigan's most popular sport shifts to a faster summer pace starting June 25 when thousands of anglers will spread to the state's some 11,000 lakes for the first time this year.

The last Sunday in June, the conservation department reminds, signals the start of some six to nine months of bluegill, sunfish and black bass fishing throughout the state. A number of other species also become legal cane pole targets in southern Michigan below highway M-46.

Included are northern pike, walleyed pike, crappies, rock bass, yellow perch, warmouth bass, whitefish, white bass and other fish which are listed in the fish law digest. The pike season already is in progress above the Muskegon-Port Sanilac line (highway M-46) while there is no closed season on the other latter species mentioned.

Regulations are unchanged except for a liberalization of the walleye minimum size limit from 14 to 13 inches. The daily creel limit on bluegills, sunfish, perch, rock bass, crappies and warmouth bass remains the same at 25 in any combination of which not more than 15 of the total may be bluegills. There is not minimum size limit on these species. White bass must be seven inches long, daily possession limit is ten. Whitefish of any length may be taken, maximum daily limit is seven.

For northern pike, walleyes, largemouth black bass and smallmouth black bass, the daily maximum is five in any combination on inland lakes and streams. Minimum size limits are 14-inches for northern and 10 inches for either bass species.

Frogs may be taken starting June 25. They may not be speared at night with artificial light.

The conservation department cautions the resident angler, who has yet to pick up his \$1.50 license, that he may find his favorite supply source exhausted if he waits until the last minute. A license is required for fishing in inland waters of any person who has passed his 17th birthday. Wives of resident anglers only can fish free by filling out the stub attached to the regular license. Nonresident fishermen, including wives of out-of-state, may purchase a 10-day temporary license for \$2 or the annual license for \$3.

The conservation department's fish division operates 164 public fishing sites which provide boat launching space and parking facilities on many lakes and streams. Division field crews expect to have these sites cleaned and touched up.

Michigan led the nation with the most licensed fishermen (1,110,109) in the last fiscal year according to the U. S. Fish and Wildlife Service.

Golf Club Lines Up Four Tournaments

Four tournament matches have been scheduled by the Grayling Golf Club this year, it was announced by William Joseph, chairman of the tournament committee. On Sunday, July 23, West Branch Country Club will send a team here while on July 30 Grayling golfers will move into the Gaylord Country Club for a match. On Sunday, August 13, Grayling will entertain the Gaylord group in a return match here and on Sunday, August 20 the Grayling Club will travel to West Branch for their return match.

In addition, the club played a match with officers of the Colorado-Wyoming Air Guard last Sunday and expect to set up matches with officers of the Indiana and Michigan Air Guards and Ground Troops while they are encamped here. All golfers are urged to turn out for matches. A place will be found for everyone, it was said.
